

EASY™ SoftBack

EL

EASY™ is a well-designed hygiene stool with a great many advanced functions. The hygiene chair is designed with telescoping pillars to create as much space and flexibility as possible for care personnel. The chair is suitable for use in shower and toilet environments in care institutions and at home.

EASY™ can be raised, lowered and tilted forwards and backwards even with the user in the chair. It's functions make the EASY™ Unequalled aid for personnel while also providing great comfort for the user (for example, its ability to tilt really helps take the strain).

EASY™ is available with our new, soft Comfort seat with an opening at the rear for a more natural, hygienic working method.

New feature!

Integrated seat with opening to the rear (accessory)

The seat's ergonomic design and flexible structure provide the best possible comfort the user, while the opening to the rear provides the carer with a natural, more hygienic working method.

Standard delivery version, green plastic seat

Individual fit

EASY™ has a neck support that is adjustable in height and from side to side for comfortable support and individual fit. stöd och personlig passform.

Adjustable back-strap

The soft, comfortable back-strap relieves pressure on bony areas. It is easily adjustable for best support and seat depth. Machine washable.

Lockable armrests

The armrests can be flipped up or locked in their lower position. This is for safety when the chair is tilted.

Tilt function

EASY™ can be inclined 5 degrees forward and 30 degrees backward. This makes it easy to use when sitting down, getting up, and for personal hygiene. The tilt function also improves the working environment and reduces strain on employees.

Plastic or metal

A plastic bedpan and guides are available as accessories for EASY™. Note that guides are available in different versions to suit plastic or metal bedpans.

See accessories

Swing-away, detachable footrests

The footrests can be swung away and detached and there is also a heel strap provided as standard to prevent the patient's foot from slipping from the footrest during tilting.

Adjustable seat height

An infinitely variable seat height from 53 all the way to 93 cm means the chair will fit every patient and reduce staff workload to a minimum.

Directionally locking castor

The right front castor is directionally lockable for easy manoeuvrability.

Lockable castors

All castors are lockable except the directionally lockable castor

Pillars

The telescoping aluminium pillars have an open design that allows water and dirt to simply run through.

Easy control

Electrical height adjustment is via hard-wired controller with a high ingress protection rating (IP65) for excellent safety.

All hygiene chairs may be ordered with 75, 100 or 125 mm castors – specify when ordering. (Unless otherwise specified, the heights shown below refer to products with 125 mm castors). Examples of possible parts combinations are shown below.

Technical specifications

CE marked according to MDD 93/42/EEC.

| Part No. | Product | Width, external | Max user weight | Seat height | Width between armrests | Seat depth |
|----------|----------|-----------------|-----------------|-------------|------------------------|------------|
| 56-270 | EASY™ SB | 65 cm | 150 kg | 53-93 cm | 50 cm | 45 cm |

Accessories, see p. 7
