Horizontal Lifting Solutions

FlexoStretch™ Lift Stretcher

OctoStretch™ Lift Stretcher

UltraStretch™ Lift Stretcher

LikoStretch 600 IC™ Lift Stretcher

LIFTING WITH POWER— AND WITH CARE

In the hospital, it takes a special combination of power and gentleness to move patients in a horizontal position — especially when those patients are severely injured. At Hillrom, we've worked with intensive-care specialists around the world to develop horizontal lifting accessories that help you move each patient with care. From the OR to the ICU, and from the Emergency Department to Medical Imaging, we deliver the support you need to keep your patients safe along their path to recovery.

FlexoStretch™ Lift Stretcher

FULL FLEXIBILITY FOR BARIATRIC PATIENTS

The FlexoStretch accessory is designed to lift and transfer your patients of size. You can easily adjust its width from 70 - 90 cm / 27.6 - 35.4", and choose between tall or regular XL LiftSheet sizes.

- May be used with our LikoGuard®, Likorall®, Multirall™, Viking® L and XL, and Golvo® lifts
- Safe working load: 300 kg / 660 lbs

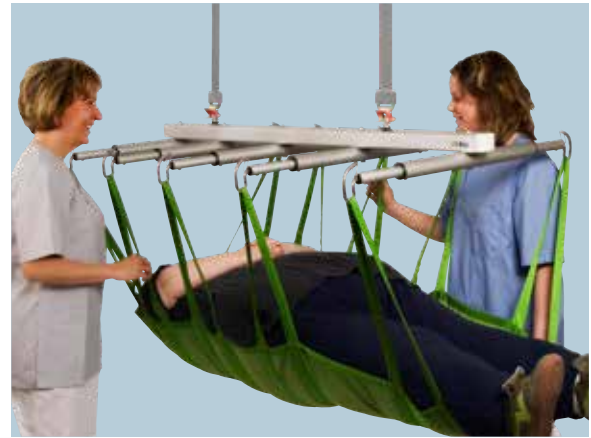

OctoStretch™ Lift Stretcher with Stretch Leveller

MAXIMIZING HORIZONTAL LIFTING SPACE

From surgical to radiology to ICU departments, the OctoStretch lift accessory can be used with any Hillrom overhead lift, and some mobile lifts as well. Choose the right LiftSheet™ size to get the access you need to care for your patients.

- At just 7.2 kg / 15.9 lbs, this lightweight lift stretcher is easy to operate
- Safe working load: 200 kg / 440 lbs

UltraStretch™ Lift Stretcher

FOR YOUR HEAVIEST LIFTS

The UltraStretch accessory is our strongest horizontal lift. It is used with the overhead UltraTwin™ system, which consists of two interconnected Likorall motors.

- Two fixture points must always be used
- Safe working load: 400 kg / 880 lbs

LikoStretch Mod 600 IC™ Lift Stretcher

FOR MORE DEMANDING SITUATIONS

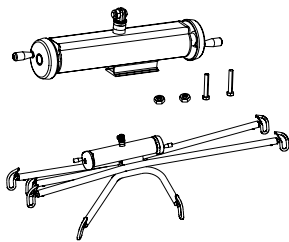

This lift stretcher accessory is designed for patients who need especially careful handling. You can gently apply its weight-bearing lift straps using the Spatula Mod 600 IC (applicator tool)—no need to lift or roll the patient.

- Ideal for ICU for patients who cannot be turned on their sides due to severe burns or fractures in the neck or back.
- Safe working load: 250 kg / 550 lbs

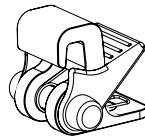

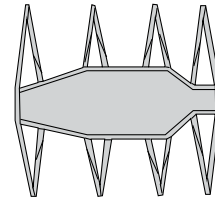

Find the right support for your patients — and your caregivers — with the right accessories.

Adjust the center of gravity during patient lifting with the optional Stretch Leveller™, depending on model.

Easily transfer patients between lift systems with the optional quick-release hook system, depending on model.

Choose between LiftStraps or LiftSheet™, depending on the model, choose between washable or single-patient use soft accessories.
