

R82 Potty Book

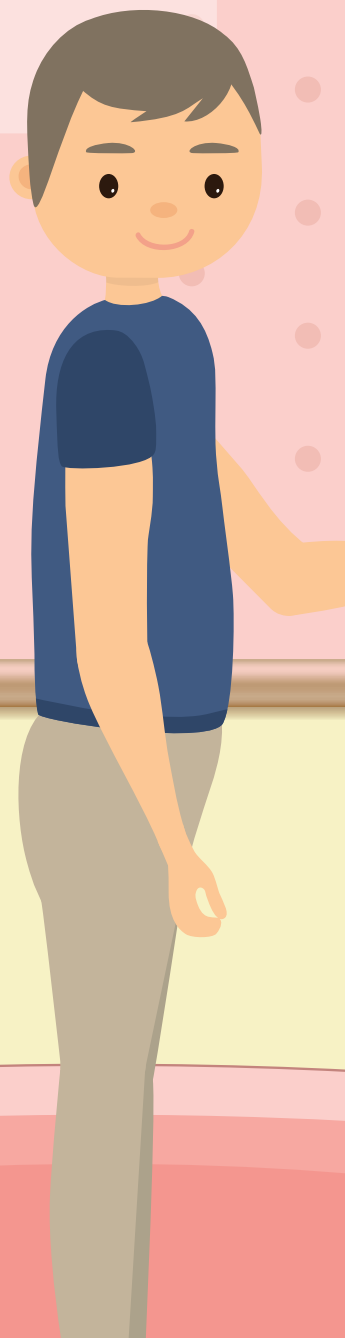

Maria uses her Swan Curo for the first time

Maria and her brother Martin are playing in Maria's room, as Maria calls out to her father: "Dad, Dad I need to go to the toilet".

Maria's father comes into the room to help
Maria. He says:
"Let's go and try the new Swan".
Maria wonders... a swan?

Now Maria remembers. Swan Curo is her new toilet and bath chair.

Maria helps take off her trousers before she sits in her Swan Curo.

Maria says: “Funny how all my aids have animal names”.

Maria's father says: "How is your new Swan Curo"?

Maria says: "It is really comfortable to sit in".

Maria's father smiles: "Here is some toilet paper – do you want to help?" he asks.

Then they are ready to flush the toilet.

Maria's father says: "Now it is time to wash and dry your hands, then you're all done."

He continues: "Would you like to do something together with Martin and me?"

“Yes, can we go for a walk in the park?”

Maria asks.

“Yes, of course, I will get your Mustang walker.”

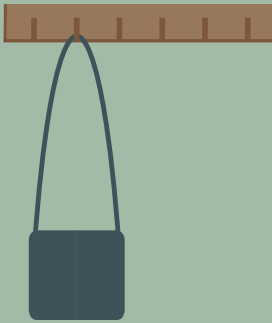

Maria’s father replies.

Maria calls out: “Martin, do you want to come with us for a walk in the park?”

Martin calls back from the living room:
“Yes, that would be great”

Maria smiles and says: “Look, there is a dog“.

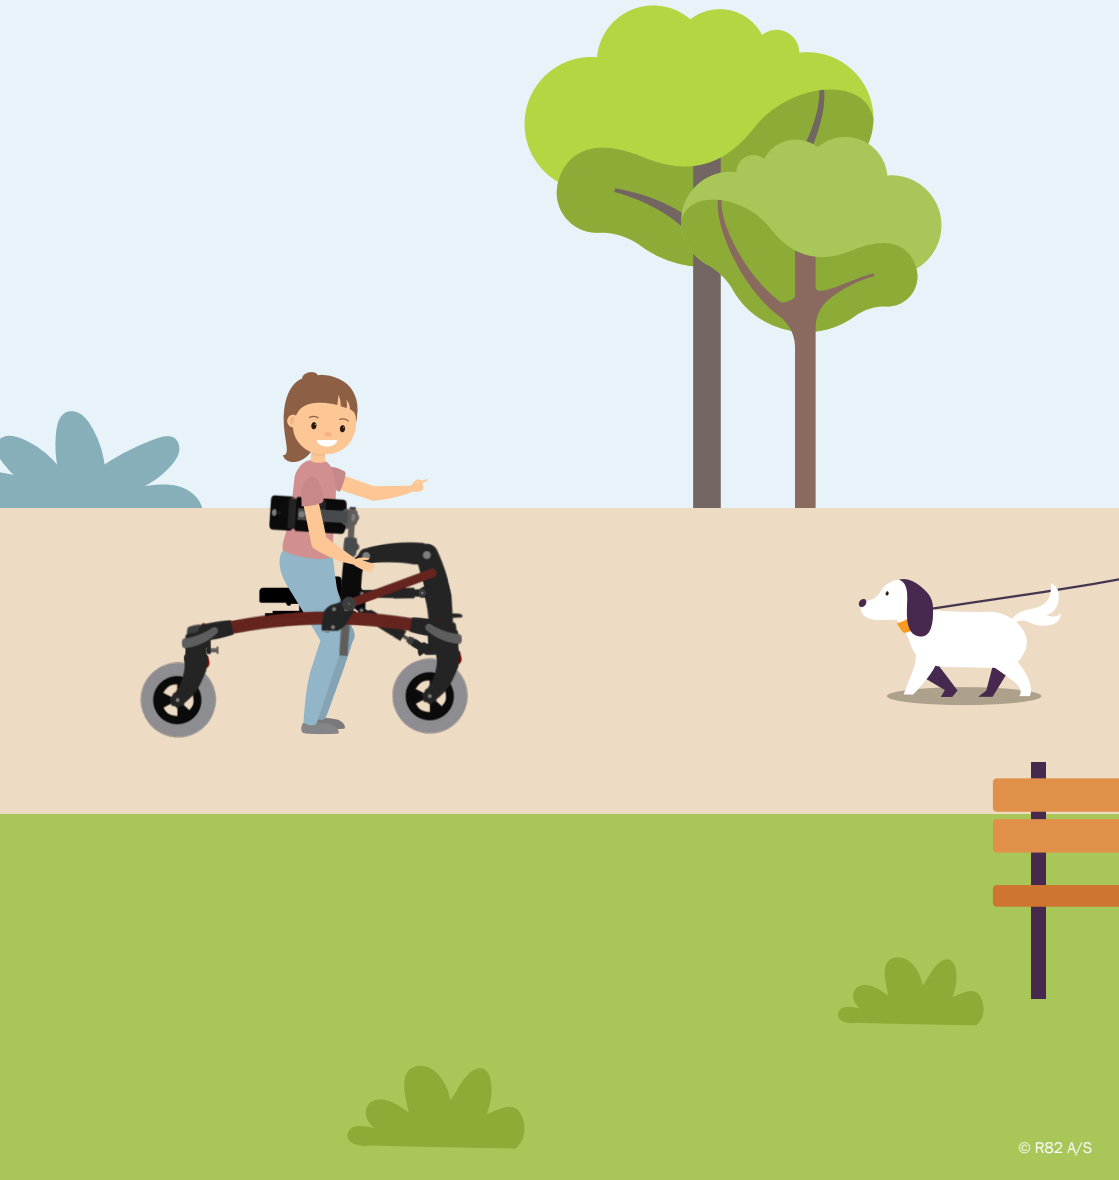

Martin says: “Yes, maybe it’s a little puppy”?

“Yes, maybe you are right Martin”, Maria replies.

She says: “I love it when we go for a walk here in the park”.

Maria’s father nods his head and smiles.

R82 produces innovative paediatric solutions adapted to the needs of the individual and the caregiver, providing support and promoting participation in daily activities. R82 is a part of Etac - one of the world's leading developers and providers of ergonomic assistive devices and patient handling equipment.
